

Saturday 4th March 2023

11am to 4pm

Wimblington Village Hall

***Public Information Meeting
Neighbourhood Plan Survey Results
and discussion forum***

WIMBLINGTON & STONEA VILLAGE “NEED YOU!”

- To protect village boundaries, to influence village development, to seek and influence better infrastructure in road layout and transport. To protect the history and environment of your village for our future generations.
- The steering group need you, the local residents to be fully involved and to come along and support our net public meeting. We need to hear what you think about the results of our questionnaire that went to all households, to offer us your guidance in how you think we should proceed in creating our Neighbourhood Plan - the policies that should be considered and included.
- Those policies need to cover our village views on local housing needs, local green spaces and open spaces, design quality, historic environment and sustainable transport. When we have a Neighbourhood Plan it has to be taken into account by Fenland District Council, along with the national planning law and Fenland District's Local Plan, when considering planning applications for our village. Many of your responses in the questionnaire are fully representative of other Neighbourhood Plans e.g. Parson Drove, as an example of a village but also March and Whittlesey. If we want to have a say in what is built and if and when it is built we have to have a Neighbourhood Plan. Please come along and support the content of your Neighbourhood Plan.

YOUR VILLAGE NEEDS YOU
